The Reduction Works (Hackendas de Bonsfledo) in Guadalupe de tos Reyes are indobted to me for a sum of money due me from the owners thereof. A mortgage upon and possession of said works was made and given me by them, as will more fully appear by the public instrument executed by them in the year 1884, before the Judge of First Instance of Cosala, Catizen Licentiale Francisco Malcampo, and which I duly presented to, and which was seen by the Governor and Secretary of State.

On the 27th of last month my creditors discovered the most expeditions means of discharging their obligation, the Prefect of Cosala, Rafael Bonilla, depriving me of the said property and delivering the same to them, and, what is worse, ignoring every effort made by me to prevent them from thus arbitrarily despoiling me of the same. All was of no ava I. The Governor and Secretary assured me that no such arbitrary order had been issued by them to the Prefect. This I believe to be the Case, and thence it results that the Prefect of missing a case, and thence it results that the Prefect of missing a case of the State of the Case of Russia, since not even the latter of the State of the Case of Russia, since not even the latter formitis similar acis.
